Mika NINAGAWA
“Eternity in a Moment Vol. 2”

Throughout the three volumes of "Eternity in a Moment," Mika Ninagawa seamlessly blends images of everyday urban life with diverse scenes from nature - flowers, fields, trees, fish, insects, and other animals. Her vibrant, varied photographs capture the impermanence of life and the potential for beauty in every moment, with each image not only telling a story but embodying a world of its own. Color, a cornerstone of Ninagawa's work, once again plays a central role, with each photograph appearing hyper-vibrant and almost three-dimensional on the page, as if Ninagawa wanted to extract every imaginable nuance of color from our world.
